

3.3 Splints and padding accessories

Leg positioning splint "2" - adopted from splints from *Volkman, Schweizer and Kehl*

Applications:

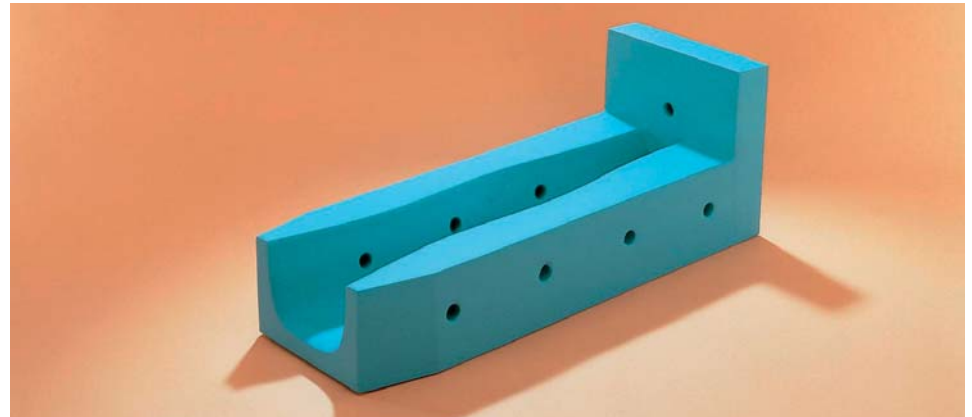

Stretched positioning of the legs, immobilization and fixation after surgeries, as well as to help heal inflammations and fractures. The padded footrest (made of plastic) minimizes the risk of developing an equinus deformity of the foot. Lateral supports inhibit leg rotation.

Material:

Medium density foam, padded footrest made of plastic

Cover:

- without cover
- Tricot cover white
- Leatherette white or according to colour guide
- PU coating agave-coloured or according to colour guide

| without cover | |
|---------------|-----------------------------|
| Art. no. | meas. length of leg L |
| 710001 | 55 cm (children) B 23 cm |
| 710000 | 75 cm (adults) B 30 cm |

| with leatherette cover | |
|------------------------|-----------------------|
| Art. no. | meas. length of leg L |
| 710101 | 55 cm (children) |
| 710100 | 75 cm (adults) |

| with PU coating, perforated | |
